9:00am Boys' Alpine-GS Mt. Abram

11:15am Girls' Alpine-GS

Reset upon finish of girls 1st run with 45min inspection to follow

A Few Notes About The Event Days

- There will be a heated tent outside the main lodge, we would greatly appreciate if racers utilize this space as Vacation week is already a very busy time in the main lodge. Also there will be **NO Crock-Pots** permitted in the main lodge due to electrical, space and health concerns.
- We would also like to note that there will be a designated area for racers to keep their skis, **it will be required that skis be on a rack or in this area** as crowding the finish with skis causes a problem for the lift line and is a major safety concern should patrol need to come through for any reason.
- We will have the T-Bar running for the racers and would greatly appreciate if your teams could utilize this lift to keep the race running at a smooth pace and to avoid congestion on the main chair.

Thank you all in advance for helping us keep the whole mountain safe for all of our guests as well as your teams. We are looking forward to hosting an

excellent event for all of you! Please feel free to email or me directly with any questions you may have.
